

ANTIMICROBIAL PROCLEAN BOARD™

Cutting Board • 12" x 16" x 3/8"

There are many germs that can thrive in a kitchen including, but not limited to, harmful bacteria.

The ProClean Board™ is manufactured with a silver-ion antimicrobial agent that prevents the growth of bacteria which causes fungi, mold and mildew.

The ProClean Board™ provides a safe and clean place for novice cooks to 5 star chefs to prepare great dishes without the worry of leaching from harmful cleaning solutions used to clean other boards.

Note: our cutting board does not contain any form of triclosan

Technology: EPA approved silver ion antimicrobial agent to resist mold, mildew, and microbes that cause odor and stain (qualification tested by JIS-Z-2801) FDA approved.

Design: The ProClean Board™ is dishwasher safe, easy on knives and has a single-sided blood-groove
